

Department of Justice Recovers \$3.7 Billion in False Claims Act Cases

On December 21, 2017, the *U.S. Department of Justice* (DOJ) announced their recovery of more than \$3.7 billion in settlements and judgments from civil cases involving fraud and false claims for *fiscal year* (FY) 2017.¹ This amount is the fourth largest recovery in thirty years,² and the eighth consecutive year in which healthcare fraud settlements exceeded \$2 billion.³ Approximately \$2.4 billion was recouped from the healthcare industry for federal losses alone, and included recoveries from drug companies, hospitals, pharmacies, laboratories, and physicians.⁴ This figure, almost 65 percent of the total recovery amount, is much higher than the \$220 million recovered from defense contractor companies and the \$1 billion obtained from other industries such as banking, higher education, and energy.⁵ In addition to the \$2.4 billion recovered for federal losses, the DOJ recovered millions of dollars for state and Medicaid programs for FY 2017.⁶

Over \$900 million of the settlements and judgments were obtained from the drug and medical device industry (approximately 37.5 percent of all healthcare-related recoupments), making this the sector with the largest amount of recoveries.⁷ One of the largest settlements within this sector involved Shire Pharmaceuticals LLC, which, in conjunction with Advanced BioHealing, paid \$350 million to resolve kickback and fraud allegations that the companies were bribing physicians and clinics to overuse their bioengineered human skin substitute.⁸ Additionally, drug manufacturer Mylan Inc. paid approximately \$465 million to resolve allegations that it had misclassified their brand name drug, the *EpiPen*, as a generic to avoid paying higher rebates under the *Medicaid Drug Rebate Program*.⁹ Despite the price of the *EpiPen* increasing by approximately 400 percent between the years 2010 and 2016, Mylan only paid a fixed 13 percent rebate to Medicaid.¹⁰

Additional legal actions were brought by the DOJ against several other sectors within the healthcare industry during FY 2017, including the *skilled nursing facility*

(SNF) and the *health information technology* (HIT) industries, resulting in large recoupments. For example, Life Care Centers of American Inc., a company that owns and operates over 220 SNFs, paid \$145 million to settle allegations that it had submitted false claims for medically unnecessary services performed in their affiliated SNFs.¹¹ This was the largest civil settlement involving a SNF in the 154-year history of the *False Claims Act* (FCA).¹² In another instance, eClinicalWorks, one of the nation's largest *electronic health records* (EHR) software vendors, paid \$155 million to resolve allegations that it had misrepresented the capabilities of its software to a certifying entity to gain certification, when in fact the software did not meet the requirements for EHR certification.¹³

Money recovered by the DOJ through healthcare fraud enforcement is crucial in returning assets back to federally funded programs such as Medicare, Medicaid, and TRICARE.¹⁴ According to the DOJ's press release, the recoveries made in 2017 are "*a message to those who do business with the government that fraud and dishonesty will not be tolerated.*"¹⁵ Further, Daniel R. Levinson, Inspector General of the *U.S. Department of Health and Human Services* (HHS), noted that "[l]arge health care recoveries benefit vulnerable Medicare and Medicaid beneficiaries as well as the taxpayers who support these programs."¹⁶ Since 1986, recoveries made under civil FCA suits total more than \$56 billion.¹⁷ Over the past five years, there has been a significant number of FCA suits brought on by both *whistleblowers* (also known as *qui tam* lawsuits) and the DOJ, with 674 *qui tam* cases and 125 non *qui tam* cases initiated in FY 2017 alone.¹⁸ Despite the Trump Administration's actions to deregulate the healthcare industry throughout 2017,¹⁹ the number of new cases in 2017 enforcing healthcare fraud and abuse laws appears to be on par, if not greater than, figures from previous years, suggesting that FCA enforcement will remain high in subsequent years.²⁰

[Todd A. Zigrang](#), MBA, MHA, ASA, FACHE, is the President of **HEALTH CAPITAL CONSULTANTS (HCC)**, where he focuses on the areas of valuation and financial analysis for hospitals, physician practices, and other healthcare enterprises. Mr. Zigrang has over 20 years of experience providing valuation, financial, transaction and strategic advisory services nationwide in over 1,000 transactions and joint ventures. Mr. Zigrang is also considered an expert in the field of healthcare compensation for physicians, executives and other professionals.

Mr. Zigrang is the co-author of "[The Adviser's Guide to Healthcare – 2nd Edition](#)" [2015 – AICPA], numerous chapters in legal treatises and anthologies, and peer-reviewed and industry articles such as: *The Accountant's Business Manual* (AICPA); *Valuing Professional Practices and Licenses* (Aspen Publishers); *Valuation Strategies*; *Business Appraisal Practice*; and, *NACVA QuickRead*. In addition to his contributions as an author, Mr. Zigrang has served as faculty before professional and trade associations such as the American Society of Appraisers (ASA); American Health Lawyers Associate (AHLA); the American Bar Association (ABA); the National Association of Certified Valuators and Analysts (NACVA); Physician Hospitals of America (PHA); the Institute of Business Appraisers (IBA); the Healthcare Financial Management Association (HFMA); and, the CPA Leadership Institute.

Mr. Zigrang holds a Master of Science in Health Administration (MHA) and a Master of Business Administration (MBA) from the University of Missouri at Columbia. He is a Fellow of the American College of Healthcare Executives (FACHE) and holds the Accredited Senior Appraiser (ASA) designation from the American Society of Appraisers, where he has served as President of the St. Louis Chapter, and is current Chair of the ASA Healthcare Special Interest Group (HSIG).

[John R. Chwarzinski](#), MSF, MAE, is Senior Vice President of **HEALTH CAPITAL CONSULTANTS (HCC)**. Mr. Chwarzinski's areas of expertise include advanced statistical analysis, econometric modeling, as well as, economic and financial analysis. Mr. Chwarzinski is the co-author of peer-reviewed and industry articles published in *Business Valuation Review* and *NACVA QuickRead*, and he has spoken before the Virginia Medical Group Management Association (VMGMA) and the Midwest Accountable Care Organization Expo. Mr. Chwarzinski holds a Master's Degree in Economics from the University of Missouri – St. Louis, as well as, a Master's Degree in Finance from the John M. Olin School of Business at Washington University in St. Louis. He is a member of the St. Louis Chapter of the American Society of Appraisers, as well as a candidate for the Accredited Senior Appraiser designation from the American Society of Appraisers.

[Jessica L. Bailey-Wheaton](#), Esq., is Vice President and General Counsel of **HEALTH CAPITAL CONSULTANTS (HCC)**, where she conducts project management and consulting services related to the impact of both federal and state regulations on healthcare exempt organization transactions and provides research services necessary to support certified opinions of value related to the Fair Market Value and Commercial Reasonableness of transactions related to healthcare enterprises, assets, and services. Ms. Bailey-Wheaton is a member of the Missouri and Illinois Bars and holds a J.D., with a concentration in Health Law, from Saint Louis University School of Law, where she served as Fall Managing Editor for the *Journal of Health Law & Policy*.

[Daniel J. Chen](#), MSF, is a Senior Financial Analyst at **HEALTH CAPITAL CONSULTANTS (HCC)**, where he develops fair market value and commercial reasonableness opinions related to healthcare enterprises, assets, and services. In addition, Mr. Chen prepares, reviews and analyzes forecasted and pro forma financial statements to determine the most probable future net economic benefit related to healthcare enterprises, assets, and services, and applies utilization demand and reimbursement trends to project professional medical revenue streams, as well as ancillary services and technical component (ASTC) revenue streams. Mr. Chen has a Master of Science in Finance from Washington University St. Louis.
